February 16, 2012

This serves as a record that

attended the following program:

Achieving Zero Accidents

Best Practice from the Construction Industry Institute

Thursday, February 16, 2012

Charles F. Knight Executive Education Center, campus of Washington University, St. Louis

Hosted by:

ST. LOUIS COUNCIL OF CONSTRUCTION CONSUMERS

This program was designed to provide:

- ◆ Tools from the Construction Industry Institute (CII) on Zero Accident techniques for site specific programs, including audits, training, worker involvement, and recognition to provide a project environment where all accidents are preventable;
- ◆ Basic Safety Guidelines for Owners and Contractors providing fundamental requirements for safety programs in the st. Louis region;
- ◆ Case study on rebuilding on site in an existing and operational public facility while protecting staff, visitors and workers while departments remain fully occupied;
- ◆ Case study on constructing an industrial facility with Owner requirements driven through contractor and subcontractor training, implementation and monitoring to keep everyone safe.

Presenters:

Dr. Jimmie Hinze, University of Florida
Robert Conte, Monsanto
Rob Warner, S. M. Wilson
Bob Shelton, City of Frontenac
Craig Spidle, Burns & McDonnell

The program's training was designed to qualify for 4.5 Professional Development Hours (PDH) for Professional Engineers under Missouri statutes and 4.5 Learning Units (LU) hours through the American Institute of Architects. Please retain this as a record of your participation.

Certifying organizations who wish to audit attendance records can contact the St. Louis Council of Construction Consumers.
