# SUSTAINABILITY

Wikipedia defines Sustainability as "*the capacity to endure.*"

In the construction world, Sustainability has become a widely used term that can be applied to many elements of a project's design and construction.

But what does it really mean to you?

- Is it LEED<sup>®</sup> certification?
- Is it using "environmentally friendly" materials?
- Is it reducing waste?

Find out from an owner, developer and designer's point of view-what makes a project "sustainable" and why "sustainability" is so important.

## Sustainability: It's More Than Just a Check List

How our region measures up and what we should be doing about it.

**Paul Todd Merrill, PE, LEED AP**  
Director of Sustainable Design, Clayco

## It Takes a Village

Getting your team on board with sustainability and LEED EB (Existing Buildings)

**Paul Brockmann, CFM**  
Senior Vice President General Services  
Missouri Botanical Garden

## Lean, Green and Mean

Increasing sustainability in every project, and implementing Green practices in your office.

**Megan Nasrallah, AIA, LEED AP**  
Senior Associate, Sustainability Leader, Arcturus

## Thursday, March 25, 2010

7:00 am Registration & networking  
7:30 am Breakfast  
8:00 am Program  
9:00 am Adjournment

### PDH & LU credit
